To whom it may concern,

As the News Director for Scroll Digital, the Brigham Young University-Idaho online news station, I would like to recommend Levi Christiansen for Video Services Coordinator at the Football Athletic Department.

I have worked with Levi for three semesters now. His first semester he worked as one of my reporters and this semester he is working as my news producer. I have been impressed ever since meeting him. Levi is ambitious and hard working with a passion for film, broadcasting, editing, and leading. He has extensive knowledge with camera equipment and editing software, and is highly effective in training reporters and producing shows. His reporters look up to him and feel comfortable going to him with questions, and he consistently goes above and beyond to help others, meet every deadline and ensure that everything he does is done with quality.

Levi also has extensive knowledge in sports and helps create sports news reports and packages for our newscast. He is knowledgeable and creative, and I always know that I can depend on him to come through and make things happen.

Thank you,

Kayla Gilbert
